Ingredient of the week: Graham Cracker

Posted On Jan 21, Posted by Hirerussians Category Ingredient of the week

It's that time of the week again. We've had a lot of great recommendations recently, but our favorite has been the request for graham crackers. We tried them in our chocolate and we added both regular graham crackers and teddy graham crackers!

We aren't sure why we didn't think of this before. It seems so obvious, especially when we've been eating snacks like smores all our life.And that brings me to some more additions we've made to the website.

We’ve added a smores bar to the favorites section. Milk chocolate, marshmallows, and teddy graham crackers, it might be the best bar we’ve ever made.

Although the chocolate doesn’t come pre-melted (at least we hope it doesn’t) it will definitely remind you of all those times you sat by the campfire melting marshmallows. The good thing about this bar is that it isn’t as messy as eating a real smore (we saw Eric eating a smore once, we’re pretty sure most of it ended up on his face instead of his mouth.)

Thanks for all the weeks suggestions! If you have anymore, don’t hesitate to let us know at info@chocomize.com
