8oz & 1lb STRAIGHT GIFT BAND
Your background color or design can extend past the Art Areas and out to the Bleed Area, but all text and logos must remain inside the Art Area.

For best results and best print quality:

- Use PMS colors whenever possible. We can't color match without them.
- Make sure your images are embedded.
- Vector art works best, but if you are using raster art make sure your raster images are at least 300dpi and are sized in your image editing application to fit the print area(s) in the template.

If you follow these guidelines and your image is clear when viewed at 100% in your image editor, then it is likely to print clear on your final product.

Glue Area

− − = **Fold Lines**

—— = **Cut Line**

—— = **Bleed Area**

—— = **Image Area**
